TYM AWARDS A+ PROMOTION GRAND PRIZE TO HARVEY SVEC

WHITE, SOUTH DAKOTA, JUNE, 2010:

Harvey Svec was surprised and delighted when he received a phone call from Charley Mullett, TYM Tractors National Marketing Manager, to advise him that he had won a Toshiba 40" 1080p LCD Television, the Grand Prize in the TYM A+ Promotion.

The promotion, which encouraged new customers to visit their local dealers and try out TYM's tractor models, was held earlier in the year. Harvey had been on a quest to find a tractor which met all of his requirements for quite some time. His research showed that the TYM tractors came out on top when he compared their features to other tractor brands.

So, with his TYM A+ entry form in hand he visited **Johansson Sales and Service**, a TYM dealer in Ghent, Minnesota in March. Lars Johansson was pleased to send in Mr. Svec's entry form and show him some TYM tractor models. After testing out the T603 Harvey knew it was the one for him. His tractor was delivered in April and he and his wife Harriett have been enjoying it immensely. Harvey stated recently, "I did a lot of research in preparation of buying a tractor and I chose the 603 because it's a nice shuttle with great hydraulics. It's got 3 sets of hydraulic remote controls; it's got 24 speeds and a creeper gear which is great to have when I'm removing snow. My wife finds it very easy to drive and we both like the cab which is spacious and has heat and air. We use our T603 for mowing, chipping and clearing snow. We couldn't be happier."
